

METROPOLIS OF BOSTON
SAINT NICHOLAS CHURCH
LEXINGTON, MA

SAINT NICHOLAS

MASTER PLANNING COMMITTEE PRESENTATION

Sunday, January 27

Immediately Following Divine Liturgy in St. Irene's Hall

Please plan to attend a presentation by the St. Nicholas Master Planning Committee, where they will present its work to date on planning for the long-term vision for the church facilities. At this meeting, the committee will present three options considered to date:

- Remodeling and expanding the existing church and associated facilities
- Building a new church and associated facilities on the same property
- Selling the church and parish house, and building a new church and associated facilities on a new property

The purpose of the meeting is to provide information to the parish on the committee's findings to date and to begin to foster dialog about the long-term vision for our building facilities to support the ministries of St. Nicholas. We want to hear from you!

If you have any questions about the master planning committee or its activities, or want to join the committee, please contact the committee chairman, Tom Tsaros, at ttsaros@gmail.com or 617-733-6107.

Thank you and God bless!

St. Nicholas Parish Council
